Summary

Software Engineer with 5+ years building enterprise and e-commerce web applications with ASP.NET Core, Angular and MSSQL, for clients in Bangladesh, the UAE and Saudi Arabia. Now building hands-on AWS skills to work on cloud-hosted applications.

Skills

Backend: ASP.NET Core, Web API, EF Core, ASP.NET MVC, ASP.NET Identity, JWT
Frontend: Angular 18, React, JavaScript
Database: MSSQL (stored procedures, advanced SQL), Oracle
Tools: Git, Agile/Scrum, Crystal Reports, ZKTeco SDK
Cloud (currently learning): AWS EC2, Linux, Nginx, EBS snapshots and backup management
Certifications: HackerRank Problem Solving (Intermediate), HackerRank SQL (Advanced)
Problem solving: 600+ algorithm problems solved on Codeforces, LeetCode and HackerRank

Working Experience

Software Engineer at Next IT Limited | Gulshan 1, Dhaka, Bangladesh | Nov 2025 – Present

- Develop and maintain full-stack enterprise modules (Account, Inventory, Restaurant Reservation) with ASP.NET Core Web API, Angular 18 and MSSQL.
- Implement features from SRS/SDD documents in an Agile team, with daily scrums.
- Improve code quality through peer code reviews and support QA.

Senior Software Engineer at Royex Technologies | Dubai, UAE (Remote) | Jan 2024 – Mar 2025

- Houfna (e-commerce platform for UAE clients): maintained and enhanced a high-traffic platform by optimizing stored procedures and building scalable Web APIs.
- Dure Raiders admin panel: built from scratch with ASP.NET Core MVC to track club activities and events.
- Royex Event Management: developed and maintained full-stack features, delivered for NEOM, Saudi Arabia.

Software Engineer at Pixamatics Technology Ltd. | Banani, Dhaka, Bangladesh | Jun 2022 – Dec 2023

- HRM system: implemented authentication and authorization with ASP.NET Identity and JWT.
- Built RESTful APIs with ASP.NET Core for React and mobile clients.
- Integrated ZKTeco biometric devices through a Windows app for real-time attendance sync.

Junior Software Engineer at PC Link IT | Mohammadpur, Dhaka, Bangladesh | Nov 2020 – May 2022

- Microfinance system for 70+ clients across 700+ branches: development and maintenance.
- Built an internal project management tool for tracking team work progress.
- Redesigned and developed 100+ Crystal Reports, improving data and design accuracy.

Educational Background

BSc in Software Engineering, American International University – Bangladesh
2017 – 2020 | CGPA: 3.54 / 4.00

Higher Secondary Certificate, Notre Dame College, Mymensingh
2016 | GPA: 4.83 / 5.00

Secondary School Certificate, Anjuman Adarsha Govet High School, Netrokona
2014 | GPA: 5.00 / 5.00
